In exercise of the powers conferred by the All India Council for Technical Education Act, 1987 (52 of 1987), AICTE makes regulations fixing norms and guidelines for admission of students to professional colleges. The norms for management education have been prepared by AICTE. These are outcome of intensive discussions held during various seminars organized and subsequently approved by AICTE.

For entry into Post Graduate Programme in Management (PGPM), the Norms and Standards (Revised Edition 1999) prescribes an All India Written Admission Test to assess applicants' aptitude and preparedness as given in Annexure I.

SECTION I LANGUAGE COMPREHENSION

Directions : Read the passage carefully to answer the questions that follow.

Procrastination is a costly and draining problem for all of us. The easiest way to deal with procrastination is to never let it get started in the first place. Procrastination plagues us all. More plans go astray, more dreams go unfilled, and more time is wasted. It is a major stumbling block for almost everyone seeking to improve his use of time. For many, this becomes an insidious habit that can ruin their careers, destroy their happiness, and even shorten their lives.

Procrastination is respectful of no one. All of us suffer from it at one time or another. Procrastination is doing low priority actions or tasks rather than higher priority ones. It is straightening your desk when you should be working on the report; watching TV when you should be exercising; calling on the friendly customer who buys very little when you should be preparing a sales presentation for that tough prospect who could buy much more; avoiding a co-worker rather than telling him the bad news; staying away from office to avoid disciplining a subordinate; and postponing activities with your children, because there always seems to be something "more urgent", until suddenly they're grown and you realize it's too late to do any of the things you've always talked about doing together.
